

LUXE

Apple recently made some updates to their iPad product line back in September and announced the iPad 7th gen 10.2 - inch. This new iPad is the same height and length as the iPad Air 3rd gen. 10.5 - inch, **HOWEVER** it is 1.4mm thicker. Also the camera locations shifted slightly. As a result we needed to make a few changes to our existing product line to accommodate the thickness of the new iPad.

When will the new products be available:

Shipping the week of 11/25

What has changed.

In order to accommodate the thickness of the new iPad we altered the thickness of the LUXE bezel, subtly increasing the bezel size.

The camera opening on the back Shell of the LUXE case was opened to provide clearance for the two different camera positions.
